

## CA MD Range

---

For medium to smaller air flow volumes against high resistances. Universal application for domestic, commercial and industrial purposes.

---

### Features

- Two speeds
- Polyester powder-coated metal for any weather condition
- Mounting brackets for easy installation
- Turbine fan mounted on ball-bearing motor
- Can be mounted in any position
- Protection rating IP44

---

*polyester powder coated metal / 2 speed / mounting brackets / turbine fan*
